The Charleston News

MONDAY, JULY 31, 1871.

Persons leaving the city during the summer season can have THE DAILY NEWS mailed to their address at One Dollarter month, payable in advance.

NEWS OF THE DAY.

-Gold closed at New York on Saturday at

12a124. -Cotton closed quiet and lower at 20 cents

sales 623 bales. -In Liverpool cotton closed flat; uplands 8Id., Orleans 9id.; sales 8000 bales.

-Lemons have been grown this season in Southern Florida.

...The cotton trade of Cincinnati amounts to \$5,000,000 annually.

-The "Cæsarian operation" is said to have been recently performed by a New Haven physician, both mother and child surviving. - Alexandria, Virginia, is reported to be making a tresh start 'n the march of improvement. A large number of buildings are going

-Baron Rothschild, of London, has present ed to his jockey, Tom French, who won the late Derby races for him, the sum of £1000, and besides allowed him an annuity of £200.

-The average weight of the cotton bales received at New Orleans during the year ending June 30th, 1871, amounts to 451 poundsthe 1,297,557 bales exported weighing 585, 490,483 pounds, and being worth \$83,882,013. The average weight of the cotton bale in the year ending June 30th, 1870, amounted to 449 pounds-there having been exported from New Orleans 969,959 bales, weighing 435,-452,826 pounds, and valued at \$100,685,603.

-The planters of Florida are substituting Swedish laborers for their colored field and farm hands. A planter, writing from Quincy, says of the Swedes: "I have had one with me since last October. From the first day he picked as much cotton as any hand in the field. made the best fireman I ever had around a sugar furnace, beat all the hands at splitting rails, and is as good a ploughman as there is on the farm. The best of it all is, he never drinks, l'es nor steals, and is a type of the rest of them."

-By way of Havana, we learn that the King of Spain has issued a proclamation forbidding the importation of coolies into Cuba. The reasons given for this step are not humanitarian, but political. The King is not so much opposed to serfdom and peonage as to the introduction of what he considers a disturbing political element. Unfortunately for both views of the Cuban coolie problem, the planters and factors of the "ever-faithful isle," according to the New York Tribune, go on importing Chinese laborers just as though Amadens I had not spoken at all.

-The staid London Athenæum, in the course of its otherwise solemn comment on the Orange riot in New York, indulges in what it would probably call a "shy" at that city's "local topic." It informs its readers that "James Fisk, of Erie notoriety, commands the Ninth; and turned out with his regiment to protect the procession. Some one hit him with a club, but unfortunately only broke his ankle; but his death was reported on 'Change, and Erie stock immediately rose. If he dies, thought the shrewd ones in Wall street, the eighth commandment may again have a meaning in New York, so they bought on that very remote chance."

-Mention has been heretofore made in THE News of the success of a Scandinavian resident of Georgia in procuring the immigration of Swedish laborers to that State. It is now stated that this gentleman, Mr. W. J. Foss, who recently brought a number of Swedes .o Jasper and Putnam counties, is going back to Sweden about the last of August, and will return with more im igrants some time in December next. Parties desiring to send for servants are notified to write to him, stating whether they reside in town or in the country. and what description of servants they want. This is something practical, and probably more effective than any amount of "State aid" would procure.

-The Boston Medical and Surgical Journal of July 29 has a communication from Dr. N. R. Smith, of Baltimore, showing the poisonous effects of hydrate of chloral when persistently used for the purpose of producing sleep, and fatal results of large doses. Five cases of death from its use, four of them in that city, some of them very sudden, are mentioned. When given in small doses, and continuously, for some time, it seems to produce gangrene of the extremities. Given in large doses, and especially where the system may have been charged with it by its previous administration, it exerts its deadly effects upon the heart or brain, perhaps on both, and causes immediate death. It is believed that chloral, entering into the blood, develops chloroform in that fluid, the amount developed being determined not merely by the quantity taken, but by the condition of the fluid. As to the use of chloroform itself, this experienced surgeon says the more he has used it, the less has his confidence become in its harmlessness.

-A company of land proprietors, owning about two hundred acres of land near the city of Louisville, for which they paid at the rate of \$105 per acre, have managed to put themselves in the way of making a good deal of money by entering into a speculation which needed only tact, enterprise, and liberality in expending money-in advertising and otherwise-to make their venture a success. They Buckle on your armor, not to be taken off bought the land on the first of June, and immediately proceeded to lay it out in squares, streets and avenues, well fenced and whitewashed, and named appropriately-establishing, in fact, a complete town, minus the houses, public buildings, &c. Having progressed thus far, they next advertised the sale extensively in the city and interior papers of Kentucky and neighboring States, prepared "taking" maps of the site of the proposed new village, built a short railroad to the line of the property at an expense of \$35,000, and during the days of sale spread a fine lunch free to all comers. The result was that a large throngmostly mechanics-attended, and the enterprise of the parties was rewarded by selling one-half of the tract for \$250,000. The other half, the most valuable portion of the property. was reserved by the owners, who, it is thought with reason, will realize a large fortune within less than six months' time from their enter-

prise.

—The Baltimore Sun, of Friday, says: "Mrs. Elizabeth G. Wharton, confined in the Balti-

ing to poison Mr. Eugene Van Ness, of Baltimore, continues to evince a degree of selfcontrol that is truly surprising. She converses very freely upon the subject of the alleged murder, and in every instance when the matter is alluded to protests her entire innocence She appears perfectly calm and collected, and after reading on Tuesday the charges made against her by her sister-in-law, Mrs. J. G. Wharton, who accuses her of having poisoned both Mr. J. G. Wharton and his child, pronounced the charges false in every particular. She complains that she is the victim of the most unfortunate circumstantial evidence, and speaks with the greatest confidence of the ability of her lawyers to prove her innocence. The only time that she has ever evinced any extraordinary emotion was when it was hinted that a plea of insanity would be entered in her case. Her daughter, Miss Nellie Wharton, remains constantly in attendance upon her mether. The pale cheeks of the young lady testify to her grief, yet Miss Wharton continues to bear up nobly, though her delicate constitution will, it is feared, succumb to the sorrow she experiences. Frequent ineffectual attempts have been made to induce her to leave the prison. The case comes up for trial, before Judge Glimor, at the September term of the Crimnal Court."

The Tug of War.

Citizens of Charleston! Upon your behavior, during these pregnant days, depend your personal welfare and public security. This is the tide in your affirs. You must take it at the flood. Unless you now strike home there is no redemption for Charleston, until, in the course of decades, South Carolina Radicalism shall become liberal, intelligent and pure.

The enemy are uneasy and depressed. Their candidates do not, and cannot, command the united support of the party. But, with unfailing courage, they will struggle on to the end. The Radical leaders are not sanguine, but they do not despair. In this city they will resort to every dodge known to the unscrupulous politician. Their runners are at work outside the corporate limits, and will attempt to flood Charleston with country negroes. The videttes have already arrived, and will present themselves for registration to-day. All the power which their control over the State Government gives them will be used by the Pillsbury crew to carry this eventful election. The situation is surrounded with difficulties. These, however, the Conservatives can overcome.

done well, but the tug of war is at hand. To-day and te-morrow, a desperate effort will be made to register the repeaters, and the plantation raiders, who are hired by Radical officials to vote down the merchants and mechanics of Charleston. This danger must be met squarely. Assemble by the hundred at the polling precincts. Watch every new-comer found prowling about the streets. Keep your eve on every man who offers to register. Challenge all suspicious characters. When your challenge is overruled, seek out the place of residence of the would-be voter, ascertain whether his sworn statements are correct, and if he has perinred himself, make an affidavit of the facts, and require, as you have the right to do, his as soon as they offer to register. immediate arrest. Do not depend on the ward working committees. They are not large enough; this was proved on Saturday. Give up three days to Charleston and to yourselves. Rally around the precincts, and, that there may be concert of action, report for orders and instructions to the chairmen of wards, or their delegates, whom you will find where work is most hard and the danger great. This is the pro-

gramme for to-day and to-morrow. On Wednesday every Conservative citizen, who is not incapacitated by age or disease, should be at the polls in his ward from the time that the balloting begins until it finally closes. Nor hunger nor thirst should tempt the good citizen from his post. You endured and suffered during years of war, to meet defeat at last. Be diligent and determined for three days, and the battle with corruption is won. Count the cost of defeat, and you will spare no pains to succeed. This, above all, bear ever in mind. With no illegal voting, on Wednesday, you must triumph. But any want of vigilance, in allowing a swarm of James Island and Berkeley negroes to register, may lead to your overthrow. And a defeat now by an irruption of illegal voters from the parishes means the breaking up of the Conservative party, and the lasting predominance of the Pillsburys, the Mackeys and the Cains, who would make your city a desert and your Council Chamber 'a den of

Citizens of Charleston! Think of the issues which these few days decide. Remember the momentous interests which are at stake. Be earnest, be patient, be brave. until the Radical hydra is grovelling in the dust-until the wine of victory flushes your cheeks, and tells you that the strife, this time, has not been in vain!

TIME IS SHORT. REGISTER TO DAY. The Two Tickets.

On Tuesday last the Radical Convention met in this city for the purpose of nominating candidates for Aldermen, to be voted for on Wednesday next. The delegates had been exhorted to choose trustworthy and At one moment the Organ proposes to derespectable men, and were warned that a feat certain of the party candidates as un-Riff-Raff ticket, made up in the main of vicious or obscure candidates, would not re- exhorts its followers to elect these very men, ceive the support of the thin end of the con- i. e. the whole ticket. servative wing of their party. This plain talk was like whistling to the wind. The ticket, has mixed things fearfully. No wonder. To as a whole, was so monstrous as to nauseate | defend the reconstructed ticket successfully

General Ketchum, of Washington, and attempt- similar doses three years and one year ago A blast was sounded by the party organ. It declared that it would scorn to vote for the licket, and urged upon its Radical readers This was the last feather, and the Radical Beft had their choice between a certain rout at the polls, and a reconstruction of their ticket. They chose the latter alternative, called their convention together on Friday night, and put forth an amended list of candidates, as printed in our issue of Saturday. How far they were controlled by the advice and threats of their soft-spoken brethren the reconstructed ticket shows.

In Wards 2, 6 and 8 no change was made the former candidates being renominated. Ward 1 received Mr. B. O'Neill and Alderman J. F. Greene, instead of Mr. T. J. Mackey and Coroner Taft. In Ward 3 Alderman R. Howard (colored) was substituted for A. F. Farrar. Ward 4 was given Mr. Moses Goldsmith in place of Major E. Willis, who had peremptorily declined to be a candandidate. In Ward 6 A. Aspinall was substituted for A. Grant-one colored man for another. Mr. Cameron was renominated, but has again declined to serve. For Ward 5 Mr. E. D. Enston was nominated to replace Jno. A. Mushington, bat Mr. Enston refuses to serve on any consideration. Mr. O'Neill and Mr. Goldsmith likewise decline. The reconstructed ticket, therefore, is not a whit better than it was on Tresday, when it was abused and condemned by every intelligent man in the Radical ranks. The new ticket is no purer or stronger than the old. Both are tarred with the same brush and made of the same rotten material. Neither the first nor the last deserves the support of any person who has at heart the interests of the city.

We ask any candid citizen, whatever his politics, to compare the two tickets. The Citizens' ticket represents all classes and all shades of moderate political opinion. It represents the blacks and the whites, the mechanic, the laborer and the merchant, the adopted citizen and the native Charlestonian. There is not upon it one man whom the whole community cannot trust. The Radical ticket, on the other hand, has upon it but one man who represents, in the least, the stability and property of the city. It is a class ticket, made up by corrupt politicians

for purposes of personal gain. We ask the one or two respectable candidates upon the Riff-Raff ticket, whether they have any hope of influencing the large majority who only know decency by name? Do they not understand that they will be outvoted upon all occasions? Can they not see that, if elected, they will, whatever their personal innocence, share the disgrace and ruin which the new Council will bring upon Citizens of Charleston! So far you have | the city? As honest citizens they cannot become members of the Contract Ring. Yet upon their shoulders, in the public mind. will rest the blame and reproach.

DO NOT PROCEASTINATE. REGISTER TO

The Raiding Voters.

We have positive information that a party of country negroes came into the city by the Northeastern Railroad on Saturday, hold ng themselves in readiness to register and ote at the municipal elections. These men idmitted that they were not residents of Charleston, and excused themselves by say ing that one of the county officials (whose name they gave) had told them to come in and vote. Their names are known to the ward committees. They will be challenged

Other gangs may be expected to arrive in Charleston to-day, both from James Island and the parishes. They will defeat the Citizens' ticket if they escape discovery. The registration is as important as the voting. because every man whose name is found on the register will be allowed to deposit bis ballot. We must meet the Radical enemy to-day and to-morrow. Every citizen should constitute himself an amateur detective, making it his especial care to hunt down illegal voters. Four or five hundred citizens. working at the precincts for these two days will make illegal registration highly dangerous. And if we can keep down repeaters, and exclude the raiders, the Citizens' ticket must be elected by a handsome majority.

UNLESS YOU REGISTER YOU CANNOT VOTE REGISTER TO-DAY.

Pillsbury as a Know-Nothing

A letter has reached us from Springfield, Massachusetts, giving more particulars of the close and intimate connection of Mavo Pillsbury with the Know-Nothing party. It is declared that he was regarded as one of the most thorough-paced Know-Nothings in the old Bay State, displaying in his adhesion to the party the zeal which is now spent in finding fat jobs for the members and connections of his household. As the enemy of all foreign-born citizens, as a wish-washy executive officer, as an official who winks at a wasteful expenditure of the public money, as an adventurer whose heart is in Massachusetts while he draws his salary in Charleston, Mayor Pillsbury richly merits an ignominious defeat. Citizens of Charleston, give him his deserts!

THOUSANDS OF CITIZENS ARE STILL UNREG STERED. ARE YOU ONE OF THE NUMBER THEN, REGISTER TO DAY.

Blowing Hot and Cold >

The Radical Organ, in its issue of Saturday, plucks up heart of grace and discusses the inerits of the reconstructed Radical ticket in this wise:

'We have no hesitation in saying that two or three of the candidates for Aldermen should by all means be defeated. This is to the purpose, although it does

not go very far. But the Organ doesn't stick. In the same article it pats the ticket on the back in this fashion: To Republicans we say, work with all you might for the election of the ticket as

There is flat contradiction in this advice. worthy of election. With the next breath it

The Organ is confused, and for some days more City jail on the charge of polsoning Radicals who had swallowed with alacrity would demand more than the proverbial in-

genuity of a Philadelphia lawyer. It may, indeed, be hinted that an Organ of ferty lawyer power could not prevent that ticket from being a miserable abortion. A silk purse can't be made out of a sow's ear !

REGISTER YOURSELF AND REMIND YOUR

Two Plain Questions.

NEIGHBOR TO DO HIS DUTY.

The Republican has prated a deal at times about its desire to get a good and respectable government for Charleston. Now-we have two plain questions to put to it: Does it honestly believe that the Radical ticket, shorn, as it is, of the redeeming names of O'Neill, Enston, Cameron and Goldsmith, is composed of men fitted by experience, intelligence, business tact, or recognized integrity to grapple with and solve the difficulties which environ our city government?

Can it deny that the Citizens' ticket is emposed, in great measure, of men peculiarly gifted with these very qualifications? We pause for a reply.

TURN OUT EARLY THIS MORNING AND REGIS TER IN GOOD TIME.

How the People's Money Goes.

The watering of the shell road is a very fair sample of the kind of economy indulged in by our present city government. For this indispensable operation, indifferently well performed, Inspector Jenks, the son-in law of our Massachusetts Mayor, draws from the city treasury the modest sum of twelve dollars a day.

Suppose this little job to be given out by contract to the highest bidder. Does anybody believe it would cost the city anything like that figure? Men would be glad to do the work for less than half the money !

YOU HAVE NO TIME TO SPARE. REGISTER R YOU CANNOT VOTE.

A Pretty Lieutenant-Governor.

Ransier was heard to say on Saturday eve ning that the Radical ticket should be elected, if he bimself had to bring over five hundred island pegroes to vote it in.

Men of Charleston, we tell you if Pillsbury should be re-elected by foul-work like this, the fault will be your own! Be on hand at your registration precinct the whole of today and to-morrow. The battle is to be won there. There is plenty of work for every good citizen. Satisfy yourselves that every applicant for registration is what he swears himself to be. Be vigilant, be patient, be untiring! To win will be worth all your pains.

Married.

WALKER-KEITT-On the 25th instant, at the residence of the bride's father, by the Rev. C. C. Pinckney, Pastor of Grace Church, George Rivers Walker to Annie Isabel, daughter of Captain G. D. Keitt, late C. S. A. All of this city.
